

JoseMenZhang

- **Summary of the report.**

The report used RPCA on stock prices time-series data to reveal correlations.

- **Describe the strengths of the report.**

The poster is clearly-organized and uses proper figures for illustration.

- **Describe the weaknesses of the report.**

I think the content in "introduction" and "PCA and Robust PCA" has some overlap. Also there is one improper line break in the "objective" part and shaded area in "discussion" part. After getting the graphical network, is there any better evaluation metrics than just visualization?

- **Evaluation on Clarity and quality of writing (1-5): 3**

- **Evaluation on Technical Quality (1-5): 4**

- **Overall rating: 4**

- **Confidence on your assessment (1-3): 3**
